RE: Quarterly Investment Report –September 2026

Background

California Government Code §53646(b) requires the District's fiscal officer to submit a quarterly investment report. The report should contain information on all securities held, and include a statement to the effect that the District will be able to meet its expenditure requirement for the next six months.

Discussion

Attachment A is the District's quarterly report for the quarter ended September 30, 2026. This report provides information on the cash and investment balances, the type of investment, maturity date, and yield of each investment. Based on the District's Final Budget as well as the dry period financing provided by the County, we project that the District has sufficient monies on hand, anticipated revenues, and liquid investments to meet the District's expenditure requirements for the next six months. Furthermore, the District is in compliance with the adopted investment policy which incorporates the Sacramento County's Investment Policy by reference.

Recommendation

Staff recommends that the Board receive and file the investment report for the 1st quarter of Fiscal Year 2026-27.

TO: Finance and Audit Committee

SUBJECT: California Public Employees' Retirement System Pension Plan Actuarial Valuations

TOPIC

The Sacramento Metropolitan Fire District (District) provides a critical benefit to current employees and retirees in the form of a public pension plan, administered by the California Public Employees' Retirement System. CalPERS closely tracks and reports the fiscal performance of that plan and provides annual actuarial valuations to member organizations detailing the condition of their pension plan.

DISCUSSION

CalPERS provides an annual actuarial valuation to all member agencies that includes data on the number of current and anticipated retirees, amortization schedules, assets, liabilities, risks, and information on the effect of additional contributions beyond what is required. Data from the actuarial valuation informs the District on the condition and sufficiency of its investment and pension plan, and provides critical budget information for the upcoming fiscal year. In the most recent actuarial valuations for the District, an expected increase of $4.4 million over the current year contribution amount was identified and will be incorporated into the FY 2027/28 budget. The presentation will explain these developments and provide background on the District's pension plan.

FISCAL IMPACT

There is no fiscal impact associated with accepting the actuarial valuation report.

Prior Years' Funded Ratios For District Retirement Plans

Average funded ratio for CalPERS for FY 2024/25: **86.1%**

Metro 14+ Pension Plan Funded Ratios as of 6/30/25

Future Considerations: Issues & Options

ISSUES

- Expected FY 2027/28 increase in CalPERS pension costs: **$4.4 million (6.1%).**

- Funded ratios for District's Safety and Miscellaneous/PEPRA plans are below the 2025/26 CalPERS Safety Plan average of 86.1%, signifying greater than average exposure to changes in market performance and demographic assumptions.

- CalPERS projections incorporate annual wage growth of 2.8%. To the extent wage growth is higher the government entity must contribute more.

OPTIONS

- Contributions to a pension investment trust (e.g., California Employers' Pension Prefunding Trust)

- Independent pension liability review to identify other options
