Pre-Inspection Application

Day Care and Residential Care Facility

A pre-inspection is a fire inspection that occurs at a prospective Day Care or Residential Care Facility prior to applying for a Fire Safety Inspection (850 inspection) with Community Care Licensing through the Department of Social Services. A Fire Inspector will inspect the facility and provide a list of California Fire and Building Code deficiencies that must be corrected prior to the 850 inspection.

Pre-inspections are not required to apply for an 850 inspection with Community Care Licensing. However, if you choose to opt out of a pre-inspection and ultimately do not pass the 850 inspection, you will need to reapply with Community Care Licensing, which may incur additional fees and delays from Licensing. ***Fees will be invoiced and collected prior to the inspection.***

Applicable fees:

Pre-inspections for 25 or less - \$608

Pre-inspection for 26 or more - \$913

Forms that are not completed in their entirety will not be processed
